Request for Proposals (RFP) for
Comprehensive Project and Construction
Management Services for New Library

Issued August 14, 2017

Proposals Due September 11, 2017

1. INTRODUCTION

The City of Pleasant Hill (City) is seeking proposals from firms interested in providing comprehensive construction management services to the City throughout the design and construction of a new library. This request for proposals (RFP) describes the background, scope of services, required content of proposals, selection criteria, and proposal submission instructions and schedule.

2. BACKGROUND

Located in Contra Costa County, Pleasant Hill is a vibrant, progressive city rich in educational resources, recreational opportunities, and community events. Significant resources have been invested and continue to be dedicated to building and maintaining a thriving downtown and beautiful community. Located 20 miles east of San Francisco and a few miles west of one of Northern California's major landmarks, Mount Diablo, the City is approximately eight square miles in area and has a population of over 33,000. Incorporated in 1961 and primarily developed over the following 20 years, some of the City's public facilities and infrastructure are beginning to need renewal and replacement.

Contra Costa County has historically provided library facilities and services in each of the County's cities. The Pleasant Hill branch of the County library system, located at 1750 Oak Park Boulevard, is the most heavily used branch in the County, with more than 1,200 visitors per day on average. The Pleasant Hill branch library building is nearly 60 years old and is nearing the end of its useful life. Pleasant Hill residents approved a half-cent sales tax measure in November 2016 to fund capital improvements, including improvements to streets and storm drains and construction of a new library building expected to cost \$15 to \$20 million.

The library project site is approximately 2.7 acres located at 1700 Oak Park Boulevard. The City is in the process of hiring an architectural firm to design the building, and anticipates that the selected architect will begin work in fall 2017. The City is planning to use a design-bid-build approach and expects that the project will be completed by late 2020 or early 2021.

If City consents to such subcontract, Consultant shall be fully responsible to City for all acts or omissions of the subcontractor. Nothing in this Agreement shall create any contractual relationship between City and subcontractor nor shall it create any obligation on the part of the City to pay or to see to the payment of any monies due to any such subcontractor other than as otherwise is required by law.

22. Termination. This Agreement may be terminated immediately for cause or by either party without cause upon fifteen days' written notice of termination. Upon termination, Consultant shall be entitled to compensation for services performed up to the effective date of termination.
